PING ERROR TEST

Explain proper scenario for following ping errors ?

Destination host unreachable

The PC₁ Sends a message to the PC₂. between the PC₂ that have a router R₁, checks the route for the PC₂, if it not have then the request become Destination host unreachable

Request timed out

The PC₁ Sends a message to PC₂ and it successfully received request. While sending the reply to the PC₁, there is no route for PC₁, then it shows Request timed out

Reply from some ip destination host unreachable

- * Incorrect Subnet mask (or) default gateway.
- * Router has no route to the destination network
- * Wrong destination IP address

TTL expired

TTL (Time to live)

TTL - 1

TTL = 0 → Stuck in loop. Terminate them.

The packet is travelling through the network repeatedly.

Win - 128

LR - 64

Cisco - 255
