PLAY WITH TECHNOLOGIES

**SNCNA**

**SUREN NETWORK CERTIFIED NETWORK ASSOCIATE**

**PHYSICAL CONNECTION  
TEST**

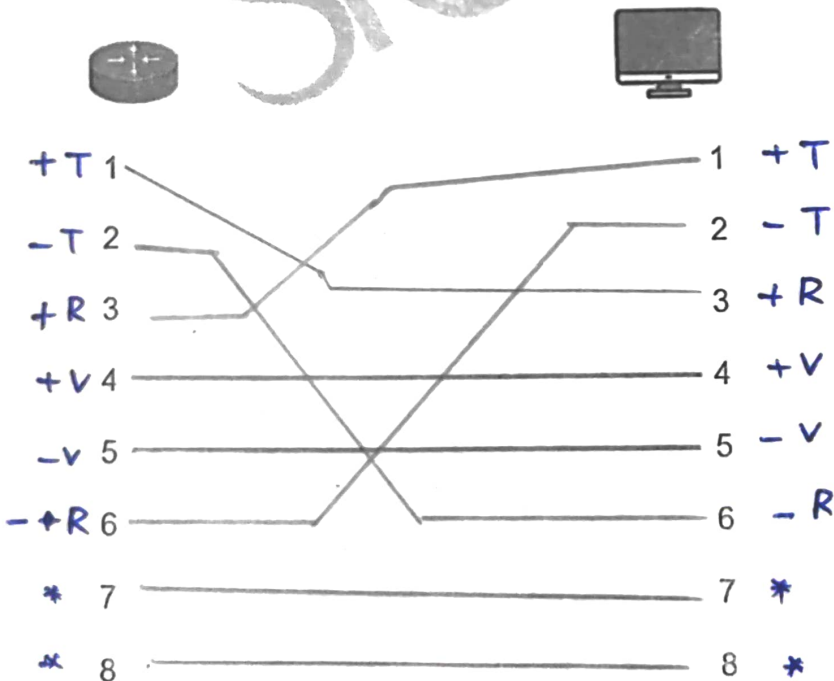

1, Types of mediums ?

Radio Frequency ( wireless)  
Electrical Signal ( wired) UTP wire (copper)  
light Signal ( Fiber cable)

2, Write down switch 8-pins ?

- |   |                |              |
|---|----------------|--------------|
| 1 | T <sup>+</sup> | Transmission |
| 2 | T <sup>-</sup> | Transmission |
| 3 | V <sup>+</sup> | Voltage      |
| 4 | V <sup>-</sup> | Voltage      |
| 5 | R <sup>+</sup> | Receiving    |
| 6 | R <sup>-</sup> | Receiving    |
| 7 | *              | Reserved     |
| 8 | *              | Reserved     |

3, Connect utp cable between two devices

4, Explain AUTO MDIX ?

Auto MDIX is a feature which present in ethernet devices ( Network Interface Card) NIC, that lets the port automatically detect the connected cable is Straight or Crossover and then adjust internally to avoid any interruption in connection

5, Explain POE injector ?

6, Explain POE switch ?

7, Explain types of nic & function ?

NIC - Network Interface Card

i) wired — [ optic

ii) wireless

Functions:-

\* It converts the Binary Signals into Electrical Signals via UTP cable.

\* It consists of Mac + Ip address.
